ATAS

St. Giles School

The School St. Giles is a school for pupils with physical disabilities and complex medical needs. The pupils are aged 4—16. We also have a resource for pupils with Profound and Multiple Learning Difficulties (PMLD) from 11—19.

Training We have been developing our training and outreach service, and are very keen to support schools with inclusion for all pupils, especially those with a disability. The ATAS team can arrange for assessments and advice on pupils in any Croydon school.

Please contact the school if you have any questions regarding the training and support we can offer. We look forward to hearing from you.
